**Members of the Supervisory Board
of the GlobE Network**

Dear colleagues,

We know that the whole world is watching the events in Ukraine today with great sadness. As the results of the latest UN General Assembly demonstrated, the whole world is shocked by the barbarous war that Russian Federation began on 24 February 2022 against Ukraine. It directly touches the Ukrainian civilians and leads to the death of innocent people – over the course of the 7 days of war, 2,000 civilians have been killed by the Russian occupation forces. They're also destroying social infrastructure and shooting down neighborhoods. This kind of actions of the Russian Federation cannot be justified.

Ukrainian heroes do not only stand for the independence of our country and for the life of our people, but also for the values of democracy, human rights and integrity.

In these hard times our anti-corruption institutions do everything possible to serve our country and stay resilient. Judges of the High Anti-Corruption Court of Ukraine continue delivering justice amid regular air raid alerts in Kyiv. Although the SWAT teams of the National Anti-Corruption Bureau regularly patrol Kyiv's government quarter, its detectives continue investigating high-profile corruption cases and safeguarding the collected evidence.

We trust that anti-corruption bodies of other governments share our aspirations and our commitment for integrity, freedom, and national independence. We draw your attention to the fact that actions of the Russian government clearly and profoundly violate the Charter of the GlobE Network, and despise mindfulness of its members to the rule of law, international peace, world's security, and human rights. By its actions the government of Russian Federation has demonstrated its contempt to the values and vision of the GlobE network.

In light of this extraordinary situation, we urge the Chair, the Vice-Chair and the Supervisory Board of the GlobE Network to urgently convene an extraordinary session of the GlobE Plenary to pass necessary amendments to the GlobE Charter and **terminate membership of the Russian Federation in the Network.**

We ask you to add you voices to those who condemn this barbarian attack of the Russian Federation. In this war the Ukrainians demonstrate unique unity fighting for their choice and their civilized future. We ask you also to be united and support Ukraine on its path to democracy, integrity, and victory.

Oleksandr Novikov
Head of the National Agency on Corruption Prevention of Ukraine

Artem Sytnyk
Director of the National Anti-Corruption Bureau of Ukraine

Maksym Gryshchuk
Action Head of the Specialized Anti-Corruption Prosecutor's Office of Ukraine
